DESCRIPTION

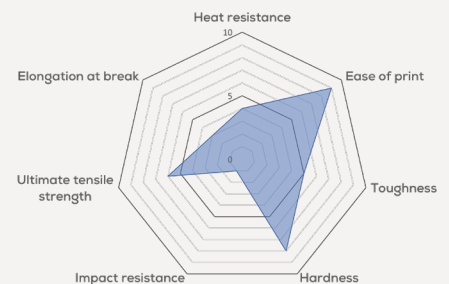

Spectrum GreenyHT is a new filament based on high-performance biopolymer. In terms of rigidity and hardness, it significantly outperforms classic PLA grades. The surface irregularity and matt look effectively mask the layers of printed part. GreenyHT filament is intended for users who demand ease of printing, delivered with enhanced thermal resistance, high rigidity and a matt, rough surface.

FEAUTURES

- rough, matt print finish
- plasticiser-free
- GMO-free
- biodegradable and compostable
- base material approved for food contact
- increased rigidity and hardness
- option to print on desktop printers without a

STORAGE AND SHELF LIFE

Filament should be stored in a dry room at room temperature. Recommended storage temperature is ca. 18-25°C (64.4 -77.0°F). Keep out of moisture, sunlight and direct heat. When stored properly, product has a shelf life of 24 months.
